

I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide XM Instant Traffic & Weather. I specifically pay for this service because I 1) cannot stand the commercials that make standard radio "free" and 2) have become increasingly irritated with the idea that a few large corporations can decide what should be heard on the airwaves in my local area. My choices have unfortunately become few and far between.

Thank you. Mark Larvo
